

KombiKlamp

Multi-purpose clamping

The clamp that adjusts itself!

The KombiKlamp is a very special clamp. Alongside the properties of a traditional all-steel screw clamp, it has a special clamping attachment. This so-called Vario clamping attachment offers a perfect fit for workpieces at angles of 60° internal to 60° external.

This makes it possible to clamp round, oval and angular workpieces both simply and securely. Spreading with the KombiKlamp is also problem free, as both the clamping attachment and the sliding arm can be quickly swapped. Now you have seen the possibilities contained within this clamp, why not try it for yourself?!

Your benefits at a glance:

- 1 Multi-angle pad**
The multi-angle pad is especially adapted to round, oval and angled workpieces – from 60° inside to 60° outside. For perfectly flat clamping remove the multi-angle pad. For spreading it is easy to reverse the position of the pad on the anvil of the clamp. Its like having 3 clamps in one.
- 2 Removable end stop**
The end stop can be removed – to allow the sliding arm to be quickly turned around for spreading.
- 3 Pressure plate**
For enhanced serviceability the pressure plate can be changed with no need for tools. It can be replaced very easily and quickly.
- 4 Tommy bar with BESSEY grip**
The addition of the plastic BESSEY grip means that clamping can also be very comfortable. The stable tommy bar has a plastic pad to ensure that it is easy to grip with your hand. This allows powerful, controlled clamping.

KombiKlamp SG-VAD

Nº	← a →	← b →	← x →	⚖	📦	
	mm	mm	mm	kg	qty.	VB0002
SG30VAD	300	120	30 x 15	2.95	6	

- Clamping force up to 7,500 N
- Clamping and spreading of round, oval and angled workpieces
- Pressure plates can be replaced with no need for tools
