## KNIPEX Cobra® XL/XXL

Pipe Wrenches and Water Pump Pliers

DIN ISO 5743

87 01 400

87 01 560

Both the KNIPEX Cobra® XL and XXL offer the performance and comfort of water pump pliers while being lighter in weight and having a greater gripping capacity than comparable pipe wrenches. The **Cobra® XL** can e.g. grip a 2" pipe fitting and weighs 50 % less than a 2" pipe wrench, which has a much lower gripping capacity. With its handy length of 400 mm, the Cobra® XL also fits into a plumber's tool kit. The **Cobra® XXL** comes along with the weight of a 2" pipe wrench but offers a back-up gripping capacity up to 4 1/2".

- greater gripping capacity but much lower weight than comparable pipe wrenches
- fast push-button adjustment directly on the workpiece, no unintentional slipping of the joint
- fine adjustment for optimum adaptation to different sizes of workpieces and a comfortable handle width
- self-locking on pipes and nuts: no slipping on the workpiece and low handforce required
- gripping surfaces with special hardened teeth, teeth hardness approx. 61 HRC: low wear and stable gripping
- box-joint design: high stability because of the double guide
- guard prevents operators' fingers being pinched
- Chrome vanadium electric steel, forged, oil-hardened

### Cobra® XL gripping a union nut of a 2" pipe fitting

large gripping capacity of 95 mm, would require a 3-inch pipe wrench

**Cobra® XL**  
length 400 mm - weight 1214 g

smaller dimensions and less weight than 1 1/2" pipe wrenches

**2" pipe wrench**  
length 560 mm - weight 2670 g

gripping the 2" union nut exceeds the capacity of a 2" pipe wrench; no confident working conditions
