KNIPEX MultiStrip 10

Automatic Insulation Stripper

PATENTED

Stripping without re-adjustment from 0.03 to 10 mm²

Improved knife geometry – robust and more durable

Optimised handle design with more comfort

Recessed wire cutter

- fully automatic adjustment to all single-, multi- and fine-stranded conductors with PVC insulation and a number of special insulation throughout the entire capacity range from 0.03 to 10 mm²
- **no manual fine adjustment required, no damage to the conductors**
- the clamping jaws made of steel hold the cable in a way that prevents slipping without damaging the remaining insulation
- with recessed wire cutter for copper and aluminium conductors, multi-stranded up to 10 mm² and single-stranded up to 6 mm²
- particularly smooth-running mechanics and very low weight
- replaceable blades block and length stop
- handle with soft-plastic zone for a steady grip
- Body: plastic, fibreglass-reinforced
- Blade: special tool steel, oil-hardened

12 42 195

Patented mechanics

The incision depth of the stripping blade adjusts fully automatically to the diameter of the wire and accordingly also to the thickness of all standard insulating materials. There is no need for any manual adjustment which is still necessary when other conventional pliers with a wide wire-stripping range are used.

STRAIGHT BLADE

Mode of operation of straight cutters
An incision is made in the red area only.

Not suitable for highly-flexible or armoured insulation materials or for multi-layered insulation.

Wire cutter for multiple stranded wire cables up to 10 mm²

Steel clamping jaws avoid skidding of the cable

Precise stripping from 0.03 to 10 mm² without re-adjustment
