

Pliers Wrenches

pliers and a wrench in a single tool

DIN ISO 5743

The smooth jaws grip all parallel surfaces in the capacity range with a high degree of pressure if necessary and open up almost unlimited application possibilities for the pliers wrench: e.g. for tightening locknuts, exerting pressure to activate the adhesive power of contact adhesives, edge breaking in tile work, snapping cable ties, utilisation as a small vice.

Replaces the need for sets of metric and imperial spanners
Smooth jaws for damage free installation of plated fittings – working directly on chrome!

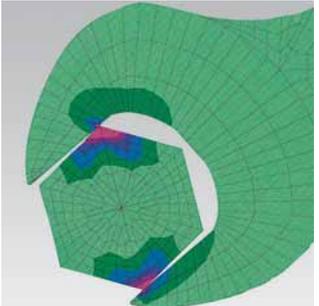

- adjustable tightening tool
- also excellent for gripping, holding, pressing and bending workpieces
- replaces the need for sets of metric and imperial spanners
- smooth jaws for damage free installation of plated fittings
- zero backlash jaw pressure prevents damage to edges of sensitive components
- adjustment at the touch of a button directly on the workpiece
- parallel jaws give a more solid grip; the construction gives infinite adjustment of all widths up to the specified maximum size
- reliable catching of the hinge bolt: no unintentional shifting
- the action of the jaws allows quick tightening and release of bolted connections using the ratchet principle
- lever transmission greater than 10 : 1 for strong gripping power
- Chrome vanadium electric steel, forged, oil-hardened

Length 150 mm
 ideal multi-purpose wrench in pocket size; indispensable companion in emergency tool kit

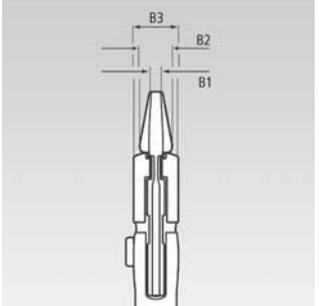

Length 180 mm
 with narrow gripping jaws - for tightening situations that require a slim tool

Pliers wrench: zero backlash contact pressure, no damage to edges

Conventional open end wrench: edge pressure causes surface damage

Fast adjustment by pushing a button

Mini-Pliers Wrench

Particularly suitable for working on small bolted connections

Excellent access in very confined areas

Original size

Working on plated fittings without damage of the surface

Replaces the need for sets of metric and imperial spanners

Ideal for bending operations
